

Fire Out

Call Me Karizma

I don't wanna die so young
But maybe I deserve it
Should've been a better person
Wondering if it was worth it
I can't undo the things I've done
Probably should've gone to church
Instead of sinning as I burst in flames
Am I too burnt to save?
Someone please put the fire out

Whoa
Where did everybody go?
For a minute I was loved
Like these LA girls love coke (dope)
Oh
Now I'm sitting here alone
For a minute I was loved
Now they love to see me choke
I don't wanna die too young
Hurry up and run from all of my problems
Try to get away
Life is no fun
Finger on the gun
Watch it go bang

I don't wanna die so young
But maybe I deserve it
Should've been a better person
Wondering if it was worth it
I can't undo the things I've done
Probably should've gone to church
Instead of sinning as I burst in flames
Am I too burnt to save?
Someone please put the fire out

I took some time to think things over
Why've I not blown up yet?
26 and I'm still sober but I've done some dumb shit
Slept with girls I never text back
Hookup once and start my jet pack
Fall in love too fucking easy
Hear your name all on my CD
Want my life to have some meaning
Meaning someone has to need me
Meaning being me is meaningless unless I'm happy breathing
Half of me is glad I'm leaving Earth in such a tragic way
The other half is sad to say
I don't wanna die too young
Hurry up and run from all of my problems
Try to get away
Life is no fun
Finger on the gun
Watch it go bang

I don't wanna die so young
But maybe I deserve it
Should've been a better person

Wondering if it was worth it
I can't undo the things I've done
Probably should've gone to church
Instead of sinning as I burst in flames
Am I too burnt to save?
Someone please put the fire out
