

## My Head

Call Me Karizma

Loving you is violence  
But hating you is fucking lonely  
I know you're not the best for me  
But I don't make the best choices

My mom told me not to play with fire  
Said you wouldn't burn me but you're such a liar

You keep running round in my head  
Round in my head  
Round in my head  
You're going fast as you can  
Chasing you's been hard on my legs  
You always come then you disappear  
You beat me up then you wipe my tears  
You keep running round in my head  
Round in my head  
Round in my head

Loving you is suicide  
I don't wanna pay the price  
When you miss my calls  
My anxiety is supersized  
Suit and tie  
Shoes are shined  
Ready for my funeral  
Whoever told me love was fucking beautiful, lied

My mom told me not to play with fire  
Said you wouldn't burn me but you're such a liar

You keep running round in my head  
Round in my head  
Round in my head  
You're going fast as you can  
Chasing you's been hard on my legs  
You always come then you disappear  
You beat me up then you wipe my tears  
You keep running round in my head  
Round in my head  
Round in my head
