

Young, Dumb And Depressed

Call Me Karizma

(I wish we could love)
(Sing it)
(I wish we could love)

Life's hard being so soft
I care, the hardest words to shake off
I never thought you'd ever take off
But you did
Now I'm feeling broke like I'm bankrupt

I'm a sinner
I'd take you out but I'd rather make you dinner
I'm new to love, I feel like a beginner
But we all gotta lose to be a winner
Why do we feel like a burden to some?
Why do we feel at all?
I guess I'd rather feel like I'm hurting
Than be numb when I hit the wall

Cause to feel pain is okay
It's okay
Cause to feel pain is okay
It's okay, it's okay

I wish we never met but we did
Now we're dancing our hearts from this bet
It's suicide how we start from my head
But we're young and we're dumb and depressed
Singing:

I wish we could love
I wish we could love
I wish we could love, could love, could love

(We're young
And we're dumb
And depressed)

Feelings what you feel when you're done like I
I'm just trying to feel, trying to feel alive
I take time to heal, I don't heal at all
Guess I don't really give a fuck at all
You know I don't ...

Understand for me girl, one time
Used to have a plan for you girl but I
Threw it all away like the daily news
When it comes to these girls I just pick and choose though

My feelings
Keep it bottled up, only tell you when I'm willing
Only messing with the best
Wish I could see the face of my exes
Baby girl, you hot like Texas
And I need you to call, no texting
I ain't handcuffed for arresting
Just get faded on me, no flexing

I wish we could love
I wish we could love
I wish we could love, could love, could love

(We're young
And we're dumb
And depressed)

I wish we could love
I wish we could love
I wish we could love, could love, could love

(We're young
And we're dumb
And depressed)
