

# Losing My Mind

Call Me Loop

Do you not think that I can see you?  
I'm watching every move you're making  
Do you think that you got off easy?  
I'm just waiting for another mistake

Cause by Thursday you'll be drinking drinks I don't like  
And by Friday you'll be saying things out of spite  
And come the weekend boy you better run for your life  
I'm going out of my mind  
I got problems  
You bring out the worst side in me  
You got me losing my mind  
You got me going crazy  
I got problems  
You bring out the worst side in me  
You got me losing my mind  
You got me going crazy

I know you say that I'm deluded  
But you don't help with your flirtations  
Do you not think that you provoke it?  
You're really fucking with my patience

Cause by Thursday you'll be drinking drinks I don't like  
And by Friday you'll be saying things out of spite  
And come the weekend boy you better run for your life  
I'm going out of my mind  
I got problems  
You bring out the worst side in me  
You got me losing my mind  
You got me going crazy  
I got problems  
You bring out the worst side in me  
You got me losing my mind  
You got me going crazy
