

# Love The Lie

Call Me Loop

Wake up in the space in my bed  
One of the things that you left at the end  
Plus a hundred things unsaid, but whatever  
They all say, "You gotta give it time"  
But I'm not sitting 'round wasting mine  
Might be a bit out of my mind, whatever

Good vibes only today  
No cares, I'm running away  
Can't nobody get a hold of me  
Good vibes only from now  
Won't let nothing bring me down  
Can't nobody get a hold of me, hey

Party from one, two, three, four, five  
I won't be coming home tonight  
Got satisfaction in my sights, woah  
Party from one, two, three, four, five  
Body on body coming alive  
Rum in my hand all night, night, night  
I'mma live the lie, love the lie (yeah)  
I'mma live the lie, love the lie

Wake up and there's pain in my head  
Memories that are full of regret  
But I know I'll do it again 'cause whatever  
Yeah, whatever

Good vibes only today  
No cares, I'm running away  
Can't nobody get a hold of me  
Good vibes only from now  
Won't let nothing bring me down  
Can't nobody get a hold of me

Party from one, two, three, four, five  
I won't be coming home tonight  
Got satisfaction in my sights, woah  
Party from one, two, three, four, five  
Body on body coming alive  
Rum in my hand all night, night, night  
I'mma live the lie, love the lie  
I'mma live the lie, love the lie

Good vibes only today  
No cares, I'm running away  
Can't nobody get a hold of me  
Good vibes only from now
