

# New Habit

## Call Me Loop

I gave up smoking  
I gave up drinking  
I gave up sleeping around  
With any broke soul in town  
I gave up fake friends  
Friends that don't like me changing  
I gave up everything bad  
But I can't give you up like that

I've never felt this high before

You're my new habit, new habit  
I wanna feel it in my bones  
You're my new habit, there I said it  
And I just need another dose  
I've been trying to quit but there's no love like this  
You're my new habit, there I said it  
And I just need another dose

You're my new habit  
You're my new habit  
'Cause you're my new habit, there I said it  
And I just need another dose

Everyone sees it  
How much I need it  
I never felt this before  
Can't blame me for needing more  
There's no prescription  
To help me kick this addiction  
I gave up everything bad  
But I can't give you up like that

You're my new habit, new habit  
I wanna feel it in my bones  
You're my new habit, there I said it  
And I just need another dose  
I've been trying to quit but there's no love like this  
You're my new habit, there I said it  
And I just need another dose

You're my new habit  
You're my new habit  
'Cause you're my new habit, there I said it  
And I just need another dose

I never felt this high before  
So if I'm coming down  
Will you be around?  
Made mistakes I ain't proud of  
And if this is one, I'll never take it back  
Good or bad

You're my new habit, new habit  
I wanna feel it in my bones  
You're my new habit, there I said it  
And I just need another dose

I've been trying to quit but there's no love like this  
You're my new habit, there I said it  
And I just need another dose

You're my new habit  
You're my new habit  
'Cause you're my new habit, there I said it  
And I just need another dose
