

Rosé

Call Me Loop

It's about time that I got a happy end
'Cause I been waiting for you for a hundred days
And now I'm tasting, mmm, that honeymoon all over again
Ooh, ah, ah, ah
It's like I'm touching you for the very first time
Forgot you smell like cherries and you taste like wine
Just like a French rosé, mmm, I could sip you all through the night
Ooh, ah, ah, ah

Baby

Oh, you know you got me crazy
Thinking about you on the daily
I'm lying in the sun just
Drinking every drop of your love
But lately
You're my favourite game to play, B
I'll be your damsel, come and save me
I'm lying in the sun just
Drinking every drop of your love

Are you some magician? 'Cause I'm under your spell
I'm looking up to heaven, is that where you fell?
It felt so bitter (Ah), but now it's sweet as hell
Ooh, ah, ah, ah
I've been waiting so long to get that midnight dance
To feel your skin up on mine like you're all in a trance
It's in the summer air, an old-school kind of romance

Baby

Oh, you know you got me crazy
Thinking about you on the daily
I'm lying in the sun just
Drinking every drop of your love
But lately
You're my favourite game to play, B
I'll be your damsel, come and save me
I'm lying in the sun just
Drinking every drop of your love

And as the night draws in after a sun-kissed day
I'm feeling drunk on your love, oh baby, please say you'll stay
You quench my thirst like the first time I drank rosé
Drinking every drop of your love

Baby

Oh, you know you got me crazy
Thinking about you on the daily
I'm lying in the sun just
Drinking every drop of your love
