

# Walls

## Call Me Loop

I'm building walls  
I build em tall

Why can't it stay like it was before (Mmm)  
Lovers and friends yeah but nothing more (Mmm)  
You know I built a commitment wall  
And it's not coming down down down down

Emotionally unavailable (Mmm)  
I know that I can be difficult (Mmm)  
And yeah my love isn't typical  
Oh, I'ma let you down down down down

So if I must confess  
I can't give you my best  
I tried and failed, oh, can't you see

I dunno how to let you love me  
You wanna pull when I push you away  
Wish I could learn to let you love me  
Oh, am I always gonna be this way

I'm building walls  
I build em tall  
But could you be the one to make me change?  
I dunno how to let you love me  
Oh, am I always gonna be this way?

Oh, I could sell you a fantasy (Mmm)  
Sell it so good that we both believe (Mmm)  
But that won't make it reality  
No I'll still let you down down down down

So if I must confess  
I can't give you my best  
I tried and failed, oh, can't you see

I dunno how to let you love me  
You wanna pull when I push you away  
Wish I could learn to let you love me  
Oh, am I always gonna be this way

I'm building walls  
I build em tall  
But could you be the one to make me change?  
I dunno how to let you love me  
Oh, am I always gonna be this way?

I know I'm broke  
And you just wanna try and fix me  
But you know I choke  
Whenever you get too close, baby, I'm building these walls...

I dunno how to let you love me  
You wanna pull when I push you away  
Wish I could learn to let you love me  
Oh, am I always gonna be this way

I'm building walls  
I build em tall  
But could you be the one to make me change?  
I dunno how to let you love me  
Oh, am I always gonna be this way?
