

# It Dawned On Me

Calla

As far as I know  
Let it go  
'cause it's never quite what it seems  
You should know but you don't  
'cause you dropped yourself to your knees  
It dawned on me

See what I need to say please  
And there's no one else there but me  
You should know but you don't  
As it slaps you upside the face  
Now I see  
I believe by the bruise that adorns your cheek  
It dawned on me
