

Stumble

Calla

Look at me, when i talk to you
Act as if i'm not standing next to you
Can't you see, it's not you
You dont have to think what they say is true
It seems like we've been here

Hold me close and don't let me go
Don't get up unless I say so
Hold me close and don't let me go
Don't get up unless I say

Cover me, over you
Digging up the dirt that has bured you
Are you done, or you through
Let me know the second they spit on you
It seems like I've been here

Hold me close and don't let me go
Don't get up unless I say so
Hold me close and don't let me go
Don't get up unless I say

(Instrumental)

Hold me close and don't let me go
Don't get up unless I say so
Hold me close and don't let me go
Don't get up unless I say

I find you wouldn't let go, for all I know, you're
slipping away
(2x)
