My Hate Unfolds

Callenish Circle

Crossing boundaries of indifference Your greed exceeds the line Egoism even multiplied

Pressing forward your lies
A path of endless consequence
Paved with bare
hands
You'll
start your endless journey soon
A path of endless consequence
Paved with
bare hands

You'll better be of dead Exercise my fantasy How my passion is your pain

Senses sliding into sin Further and further away Wake up, enjoy reality

Pressed to the ground,
a black curtain
Covering your illusions, chains of discomfort
Choking
unbound
Feel
my rejection
My hate unfolds
When your blood stains
It leaves me cold

As life is fading You're all alone Feel my rejection Your fate unfolds Exercise my fantasy

How my passion is your pain
Senses sliding into sin
Further and further
away
Wake
up, enjoy reality
Pressed to the ground, a black curtain
Covering your
illusions,
chains of discomfort
Choking unbound
Feel my rejection
My hate unfolds

When your blood stains It leaves me cold As life is fading You're all alone

Feel my rejection

Your fate unfolds
You're all alone
Crossing boundaries of indifference

Your greed exceeds the line Egoism even multiplied Pressing forward your lies

Exercise my
fantasy
How my passion is your pain
Senses sliding into sin
Further
and further away
