

## be cool

### Calling All Captains

Just watch as I fuck up once again  
Yeah, I never really contemplated anything  
I just waste my breath  
And I'll do it again

Head tilt back  
Gotta stop the bleeding  
Eyes roll back  
Too late for healing  
Be cool to me  
Cause I was never really good to myself  
Sometimes I process nothing  
Inside there's always something  
To ease my shattered thoughts  
All alone  
Empty parking lots

I've been so dismissive  
Of my inhibitions  
Is there something I can take  
Rescue me from my disgrace  
Bounce out, demons tempt me  
Tall glass and it's never empty  
It's never empty

Bad dreams, why they gotta test me  
Gotta stay strong, and I gotta be the best me  
Hey what's wrong now, come on you can tell me  
I'll never say that my mind is gonna kill me

Head tilt back  
Gotta stop the bleeding  
Eyes roll back  
Too late for healing  
Be cool to me  
Cause I was never really good to myself  
Sometimes I process nothing  
Inside there's always something  
To ease my shattered thoughts  
All alone  
Empty parking lots

I've been so dismissive  
Of my inhibitions  
Is there something I can take  
Rescue me from my disgrace  
Bounce out, demons tempt me  
Tall glass and it's never empty  
It's never empty

Just tell me who I should be  
Make your words a knife and murder me  
Just put me down  
Just put me down  
It's never ending

I've been so dismissive

Of my inhibitions  
Is there something I can take  
Rescue me from my disgrace  
Bounce out, demons tempt me  
Tall glass and it's never empty  
It's never empty

Just put me down  
Just put me down  
It's never ending
