

## Steady Pensive

### Calling All Captains

Be patient, I swear it's worth your time  
I'm craving, a little peace of mind  
Sometimes all that I want is to fly  
I'm reaching up towards the sky

So can you sense it?  
I'm steady pensive  
Caught in perceptive reflection

It's over now  
And when I fall down just leave me face down  
It's all good now  
Feeling comfort in my space, nobody to disgrace  
Cause I'm safe and sound with the haze around  
I've been so far down, my heart's on the ground

Frustrated, by the way my ears perceive  
I'm learning that what I hear  
Is not really what they mean  
I'm struggling, it's troubling  
That I haven't been better, since I can't even remember

It's over now  
And when I fall down just leave me face down  
It's all good now  
Feeling comfort in my space, nobody to disgrace  
Cause I'm safe and sound with the haze around  
I've been so far down, my heart's on the ground  
My heart's on the ground

It's over now  
And when I fall down just leave me face down  
It's all good now  
Feeling comfort in my space, nobody to disgrace  
Cause I'm safe and sound with the haze around  
I've been so far down, my heart's on the ground  
My heart's on the ground  
My heart's on the ground
