

The reason I get fucked up  
Is the seasons  
Just leave me busted leave me bleeding  
I've torn up the roots I've seeded  
But was it needed?

Some highway signs  
Lead to a better life  
Inside my mind  
(Inside my mind)

Well I think it's time that I let you know  
I'm spiraling out of control  
It hurts me now more than it did before  
I'm wearing thin I can't take much more  
I'd pull the chute if I could find the cord  
But I'm falling fast and I know for sure  
That I'll never get back what I'm looking for  
No I'll never get back what I'm looking for

I'm over thinking  
Anything and everything  
My ship is sinking  
I hold my breath before I drown again  
I know this feeling  
Can't shake my fear  
Of the pain of healing  
It's been a year since I stopped believing

Well I think it's time that I let you know  
I'm spiraling out of control  
It hurts me now more than it did before  
And I'm wearing thin I can't take much more  
I'd pull the chute if I could find the cord  
But I'm falling fast and I know for sure  
That I'll never get back what I'm looking for  
No I'll never get back what I'm looking for  
Well I think it's time I let you know  
I'm spiraling out of control  
It hurts me now more than before  
And I'm wearing thin I can't take much more  
I'd pull the chute if I could find the cord

No I'll never get back what I'm looking for
