

Brave Girl

Callista Clark

Brave girl
Sittin' in the back of the class afraid to raise your hand (Brave girl, brave girl)
Brave girl
Straightenin' your curls like them other girls, you don't wanna stand out (Brave girl, brave girl)

You'll learn to love the pieces of your messy, broken heart
And all the things you think you hate that make you who you are

Be brave, girl, jump in and make your own wave, girl
Say what you wanna say, say it like you mean it
You're gonna be okay even if you don't believe it
Hey, hey, girl, don't you go and hide your face, girl
Just hit 'em with a smile even when you feel afraid
Every single mile, every step along the way
Be brave, girl

Brave girl
Walkin' by the boy that don't know your name, wishin' he would care more
What you scared for? (Brave girl, brave girl)
Fake it 'til you make it and you'll make it on through
You don't even know the things you're gonna do

Be brave, girl, jump in and make your own wave, girl
Say what you wanna say, say it like you mean it
You're gonna be okay even if you don't believe it
Hey, hey, girl, don't you go and hide your face, girl
Just hit 'em with a smile even when you feel afraid
Every single mile, every step along the way
Be brave, girl

You'll learn to love the pieces of your messy, broken heart
And all the things you think you hate that make you who you are

Brave, girl, jump in and make your own wave, girl
Say what you wanna say, say it like you mean it
You're gonna be okay even if you don't believe it
Hey, hey, girl, don't you go and hide your face, girl
Just hit 'em with a smile even when you feel afraid
Every single mile, every step along the way
Be brave, girl (Brave girl, brave girl)
Be brave, girl (Be brave, girl)

Hey, brave girl
Lookin' in the mirror, you look a lot like me
Brave girl
