

Heartbreak Song

Callista Clark

I don't have to see your face to think about you
To get caught up in the hurricane that you're putting me through
All it takes is a melody (A melody)
And it's like it plays just to get to me (To get to me)

I feel a heartbreak song coming on through the radio
One I've never known
And it follows me with the memory, everywhere I go
Like some kind of joke

I wish I could turn it off, but I turn it up
And keep on singing along
Baby, ever since you've been gone
I feel a heartbreak song coming on
Coming on, so I sing along

Just when I think I'll be alright it plays again
And when I try to sleep at night, it's in my head
It's reminding me, I'm still missing you
Stuck on repeat, nothing I can do

I feel a heartbreak song coming on through the radio
One I've never known
And it follows me with the memory, everywhere I go
Like some kind of joke

I wish I could turn it off, but I turn it up
And keep on singing along
Baby, ever since you've been gone
I feel a heartbreak song coming on
Coming on, so I sing along
I feel a heartbreak song coming on
Coming on, so I sing along

Maybe I like this pain I'm feeling
Crazy as it seems I think it's healing
I feel a heartbreak song coming on

I feel a heartbreak song coming on through the radio
One I've never known
And it follows me with the memory, everywhere I go
Like some kind of joke

I wish I could turn it off, but I turn it up
And keep on singing along
Baby, ever since you've been gone
I feel a heartbreak song coming on
Coming on, so I sing along
I feel a heartbreak song coming on
Coming on, so I sing along
