

Good To You

Calum Scott

If I could go to back
To when you were lonely
I'd be there to hold your hand, yeah
Go into our beds
'Cause we're the only
People who can understand, yeah

The road that you travelled on, gravel and stone
Has been on every path that I've known

I will be good to you
I know 'cause I've been there before
I will be good to you
I know that it's hard
I will be good to you
Because of my struggle, I swore
That I'd always be good to you
I will be good to you
I know 'cause I've been there before
I will be good to you
Through all of the scars
I will be good to you
Because of my struggle, I swore
That I'd always be good to you

The places you've been
Those places are haunted
But soon you'll be on our way, yeah
You'll never give in
You got out what you wanted
I'll be with you night and day, yeah

The road that you travelled on, gravel and stone
Has been on every path that I've known

I will be good to you
I know 'cause I've been there before
I will be good to you
I know that it's hard
I will be good to you
Because of my struggle, I swore
That I'd always be good to you
I will be good to you
I know 'cause I've been there before
I will be good to you
I know that it's hard
I will be good to you
Because of my struggle, I swore
That I'd always be good to you

Oh, yeah
Oh, yeah
Oh, yeah
If I could go to be back
To when you were lonely
I'd be there to hold your hand

I will be good to you
I know 'cause I've been there before
I will be good to you
I know that it's hard
I will be good to you
Because of my struggle, I swore
That I'd always be good to you
I will be good to you
I know 'cause I've been there before
I will be good to you
Through all of the scars
I will be good to you
Because of my struggle, I swore
That I'd always be good to you
