

# Half A Man

Calum Scott

You made me  
Feel like we're seventeen  
Like in those movie scenes  
Where they fall in love  
And what I'd do  
To always wake up with you  
Closer than a tattoo  
On your skin

I got caught in the moment  
But nobody told me  
You'd bring me to my knees  
You're all that I want  
And I need you to see

That you make my heart beat  
You are the air that my lungs need  
You know the language my soul speaks  
That nobody else understands  
Oh when you found me  
Lost, all alone, I was empty  
But you came along and you saved me  
You make me all that I am  
And without you I'm half a man  
Ooh

Promise me  
That you'll never change a thing  
There's nobody quite the same  
As you

Let's stay here in the moment  
And never be found  
'Cause you bring me to my knees  
You're all that I want  
And I need you to see

That you make my heart beat  
You are the air that my lungs need  
You know the language my soul speaks  
That nobody else understands  
Oh when you found me  
Lost, all alone, I was empty  
But you came along and you saved me  
You make me all that I am  
And without you I'm half a man  
Without you I'm half a man

Without you I'm a half a man  
Without you I'm a half a man

'Cause you make my heart beat  
You are the air that my lungs need  
You know the language my soul speaks  
And you make me all that I am  
And without you I'm half a man
