

# Open Up

Calum Scott

You shut me out  
Shut me out again  
So take a bow  
The show has got to end

Chasing the circus  
You pushed to hard  
Heaven is raining  
You stole my heart

I'm shouting out  
But you're not listening

Can you feel it?  
Can you still feel it, anymore?  
My heart was broken  
When you slammed it in the door  
And oh  
So open up  
So open up  
It's like I've never been in love

Place your hand in mine again tonight  
I love to see that sparkle in your eyes

Can you feel it?  
Can you still feel it, anymore?  
My heart was broken  
When you slammed it in the door  
And oh  
So open up  
So open up  
Just don't give up  
Just don't give up

There's an angel on your shoulders  
That you can't see no more  
The scars they tell the story  
Cause you don't talk no more  
Why did you slam the door?

Open up  
And open up  
Just don't give up  
Just don't give up  
It's like I've never been in love  
Its like I've never been in love
