

# Peripheral Vision

Calum Scott

Focus

Don't let this mutual attraction go unnoticed  
Break into my heart just like you stole it  
Own it  
I'm liking the direction this is going  
My baby

Don't give me distance  
Don't give me space  
I need your body  
Right in my face

Why can't I get you out of my peripheral vision?  
How can I dominate all of your time and attention?  
The only thing you're seeing  
You're needing  
Uh-huh  
Is chasing down a feeling  
Believing it's love  
I just want a little over-exposure  
Baby, bring it closer

Blurry  
I wanna see you clearly so don't hurry  
I'll whisper it again 'case you ain't heard me  
Don't worry  
Even in the dark  
I'll find my way  
Oh, I'll find my way

Don't give me distance  
Don't give me space  
I need your body  
Right in my face

Why can't I get you out of my peripheral vision?  
How can I dominate all of your time and attention?  
The only thing you're seeing  
You're needing  
Uh-huh  
Is chasing down a feeling  
Believing it's love  
I just want a little over-exposure  
Baby, bring it closer

Don't give me distance  
Don't give me space  
I need your body  
All over this place

Don't give me distance  
Oh, what a waste  
I want your body  
All up in my face

Why can't I get you out of my peripheral vision?  
How can I dominate all of your time and attention?

The only thing you're seeing  
You're needing  
Uh-huh  
Is chasing down a feeling  
Believing it's love  
I just want a little over-exposure  
Baby, bring it closer
