

Sky Full Of Colour

Calum Scott

I'm seeing these faces of pure black and white
You're turning heads with the shade of your light
Let it go just a little bit, oh just a little bit

Just take a deep breath and open your mind
Explosions of colour like atoms collide
Let it go just a little bit, oh just a little bit

We're coming up now to breathe again
A million lights shining on my skin
Cause we'll breathe again
And we'll breathe again
A sky full of colour, keep us alight
Burning it up as we lose our minds
Cause we'll breathe again
And we'll breathe again

I'm feeling your touch where I used to feel numb
You're my addiction, I can't overcome
Let it go just a little bit, oh just a little bit

You've invaded my headspace [?]
You showed me your ways to see life through your eyes
Let it go just a little bit, oh just a little bit, yeah!

We're coming up now to breathe again
A million lights shining on my skin
Cause we'll breathe again
And we'll breathe again
A sky full of colour, keep us alight
Burning it up as we lose our minds
Cause we'll breathe again
And we'll breathe again

Breathing in, breathing out, living in colour again
(Colour again)
I'm breathing in, breathing out, living in colour again
Colour again!

We're coming up now to breathe again
A million lights shining on my skin
Cause we'll breathe again
And we'll breathe again
A sky full of colour, keep us alight
Burning it up as we lose our minds
Cause we'll breathe again
And we'll breathe again
