

# Stop Myself (Only Human)

Calum Scott

Driven to the fire  
Take it back to where we started  
Till we crash and burn again  
Now I got it to a science  
All this sabotage is weakness  
Dancing on a razor's edge

Where does it start, where does it end  
Two nights ago my broken heart was on the mend  
Know I should go but it's so hard when you walk in  
I'm not myself when we're apart, I can't pretend

Oh but I...  
I'm only human  
How am I supposed to stop myself  
From loving you, loving you, yeah

I'm only human  
I'm about to do the thing I know  
I shouldn't do, shouldn't do, yeah

We don't know how the story's gonna end  
But I know you're gonna break my heart again  
I'm only human, how am I supposed to stop myself  
From loving you, loving you, yeah

Heaven a disaster  
In the middle of the madness  
Hard to tell which one is which  
Always colder the morning after  
When I'm reaching out to hold ya  
Nothing on my fingertips

Where does it start, where does it end  
Two nights ago my broken heart was on the mend  
Know I should go but it's so hard when you walk in  
I'm not myself when we're apart, I can't pretend

Oh but I...  
I'm only human  
How am I supposed to stop myself  
From loving you, loving you, yeah

I'm only human  
I'm about to do the thing I know  
I shouldn't do, shouldn't do, yeah

We don't know how the story's gonna end  
But I know you're gonna break my heart again  
I'm only human, how am I supposed to stop myself  
From loving you, loving you, yeah

Look like an angel  
Horns on your halo  
Look like an angel  
And I'm drowning in your light

Oh but I...  
I'm only human  
How am I supposed to stop myself  
From loving you

I'm only human  
I'm about to do the thing I know  
I shouldn't do, shouldn't do, yeah

We don't know how the story's gonna end  
But I know you're gonna break my heart again  
I'm only human, how am I supposed to stop myself  
From loving you, loving you, yeah
