

# Unsteady

Calum Scott

I'm a little unsteady  
I'm a little messed up  
A little bit petty  
Head full of confetti  
Trying to find myself  
'Cause nobody gets me, oh  
And that's all I've ever known  
And I'm dancing on my own  
With you

Sometimes I feel like  
You're January  
A little bit cold  
A little unfriendly  
Sometimes that's scary  
But I know those moods  
Are temporary, oh  
And I found a place to go  
And I'm standing all alone  
With you

'Cause you're unsteady too  
And no one does me like you do  
There's never been someone like you  
I wanna give you all my life  
I wanna waste all of my time  
With you  
'Cause you're unsteady too

The world's a little bit heavy  
But I got you  
And I know you get me  
And it's a little bit messy  
You're the beautiful, broken  
Better part of me  
And I found a place to go  
Now I'm standing all alone  
With you

'Cause you're unsteady too  
And no one does me like you do  
There's never been someone like you  
I wanna give you all my life  
I wanna waste all of my time  
With you  
'Cause you're unsteady too

You're unsteady too  
You're unsteady too  
I wanna give you all my life  
I wanna waste all of my time  
With you  
'Cause you're unsteady too
