Sweet Nothing

Calvin Harris

```
E              B            Asm            F#
You took my heart and you held it in your mouth
E              B            Asm              F#
And, with a word all my love came rushing out
E              B              Asm                F#
And, every whisper, it's the worst, emptied out by a single word
E         B          Asm    F#
There is a hollow in me now

E                     B
So I put my faith in something unknown
Asm              F#
I'm living on such sweet nothing
E                       B
But I'm trying to hope with nothing to hold
Asm              F#
I'm living on such sweet nothing
E
And it's hard to learn
B
And it's hard to love
Asm                        F#
When you're giving me such sweet nothing
E                    B
Sweet nothing, sweet nothing
Asm                 F#
You're giving me such sweet nothing

E    B    Asm    F#

E         B          Asm              F#
It isn't easy for me to let it go
       E
Cause
         B          Asm           F#
I've swallowed every single word
      E
And
         B               Asm
Every whisper, every sigh
        F#                         E
Eats away at this heart of mine
                   B           Asm F#
And there is a hollow in me now

E                     B
So I put my faith in something unknown
Asm              F#
I'm living on such sweet nothing
E                       B
But I'm trying to hope with nothing to hold
Asm              F#
I'm living on such sweet nothing
E
And it's hard to learn
B
And it's hard to love
```

```
Asm                          F#
When you're giving me such sweet nothing
E                B
Sweet nothing, sweet nothing
Asm                  F#
You're giving me such sweet nothing

E    B    Asm   F#

E                    B
And it's not enough
      Asm                   F#
To tell me that you care
E               B          Asm                  F#
When, we both know the words are empty air
                     E    B    Asm   F#
You give me nothi-------------ng
E    B   Asm   F#
Nothi---------ng

E    B   Asm   F#

E                    B
And it's not enough
```
