We'll Be Coming Back

Calvin Harris

```
      Em
1. We took it all apart
   But I'm wishing I'd stayed
      C                                           Em
   In the back room something I heard you say
      C
   We didn't want to call it too early
      Em
   Now it seems a world away
      C                                           Em
   But I miss that day, are we ever gonna feel the same?

                     C
R1: Standing in the light till it's over
                    D
    Out of our minds
                          Em
    Someone had to draw a line
                      G             Em
    We'll be coming back for you one day
                      G             Em
    We'll be coming back for you one day
                    C
    I don't even care if I know you
                    D
    Out of our minds
                          Em
    sad to leave it all behind
                        G
    We'll be coming back
                              Em
    We'll be coming back for you one day

2. You can see it from afar
   We were riding that wave
   Blinded by the lights, and it's something not great
   We didn't want to call it too early
   Now it seems a world away
   But I miss that day, are we ever gonna feel the same?

R2: Standing in the light till it's over
    Out of our minds
    Someone had to draw a line
    We'll be coming back for you one day
    We'll be coming back for you one day
    I don't even care if I know you
    Out of our minds
    Sad to leave it all behind
                      G               Em
    We'll be coming back for you one day
                      G               Em
    We'll be coming back for you one day

    Em                        C
*: Gonna rise, gonna fall, getting pulled apart
    Em                              C
   And we all do it all cause it stole our hearts
```

```
Em                            C
Gonna light up the skies, or ignore the stars
Em                            C
And we all do it all cause it stole our hearts
```

R2: Standing in the light till it's over...
