

We're All The Same

Calvin Harris

Hey, excuse me, I forgot my name
It's okay, we're all the same
I will love you if you like my name
But we are all the same

Excuse me, I forgot my name
It's okay, we're all the same
I will love you if you like my name
But we are all the same

Excuse me, I forgot my name
It's okay, we're all the same
I will love you if you like my name
But we are all the same

Excuse me, I forgot my name
It's okay, we're all the same
I will love you if you like my name
But we are all the same

Excuse me, I forgot my name
Excuse me, I forgot my name
