

Documentaries

Cam Meekins

I seen a lot of things on this road that I've been on
And spent a lot of time on the hustle tryna get on
Just tryna drink some wine, watch some documentaries
Fuck what they said to me

I'm legendary status, all this money, I had this
Two things you'll always find me with a spliff and a bad bitch
Man, I ain't never been about that livin' it average
Ever since I ditched class and used to be on some sad shit
I'm pourin' out some liquor, memories of my dad, shit
That dude was legendary, Will Smith and his dog
I'm rollin' up a fun stick that's as big as a log
Been tryna focus on the fitness, I been hittin' the jog
Everyday I'm out here doing my job
Feelin' inspired really, off the randomness of it all
I'm happy to be alive, my attitude's gettin' high
That's really why I often times be movin' slow when I drive
I switched it up from cream to almond milk
But I guess it's cool with oat now
You peep my catalogue, I'm like the GOAT now
The verse is so prolific like he got a ghost now
I never slow down, that's really why it's time to go now

I seen a lot of things on this road that I've been on
And spent a lot of time on the hustle tryna get on
Just tryna drink some wine, watch some documentaries
Fuck what they said to me

On a mission tryna find myself
Why I look for followers when I be blind myself?
Why I hate the way the mirror don't define my health?
Certain pictures in my mind, I'm gettin' by myself
I turned the leaf, I'm on a whole new path
Had to tell my friends I'm changin'
Then my whole crew laughed
Still remember days when I was sittin', troll through class
Thinkin 'bout the bad teachers I could lowkey smash
They never wanna see you change until it's too late
I knew I loved her, I could tell right after two days
Expenses double when you start cookin' for two plates
A good relationship has gotta power through hate
I used to hate the way she made me real
Not some imaginary version of myself that I see
She said "I love the way you make me feel"
Then she laid down on the pillow so comfortably
I'm in a haze for 12 months
These blurred days of gettin' blunted
Really I was only frontin'
When I said that's all I wanted
'Cause really nothin satisfyin'
While my life is just passin' by
I get a massive high and say "What's up?"
I'm puttin' on a front like everyday
While my sunny days turn to rain

I seen a lot of things on this road that I've been on
And spent a lot of time on the hustle tryna get on

Just tryna drink some wine, watch some documentaries
Fuck what they said to me
