

## East Coast

Cam Meekins

I just took a plane to the east coast  
Met some girls that were sayin' "yeah we smoke"  
Brought 'em back to the telly where I spent a couple bands  
College girls tryna tell me 'bout their life plans  
I'm like oh man, oh man, oh man  
I'm so stoned man zoned in brought four friends  
And its lit every time I'm on the east coast  
Talk shit that's how we do it on the east coast

I just made a couple thousand at the show but really it was nothing  
I just made a couple drinks for bitches man I really feel like stunting  
Haters talking cause I'm at the top I don't ever stop, yeah  
In the telly I just got some top 'bout to cop a drop, yeah  
In my zone 'bout to do my own thing  
Google Chrome I'm just too alone  
Think to myself 'bout to write a poem  
King of the raps throwing me a bone blink  
182, I need a baddie or fuck maybe two  
I popped a Addy and Lexapro too  
But I don't give a fuck cause I'm the truth, oh  
She wanna fuck with a rapper  
She said her boyfriend don't matter  
But this might be a disaster  
After I hit it I Casper  
And I'm smoking something with intent  
Getting drunk talking 'bout this east coast shit

I just took a plane to the east coast

I just do what I want  
Smoking trees but no blunts  
Hate the kid when he stunts  
But you don't ever say nothing  
I don't go to the club  
Unless they let me wear hats  
Unless they let me blow packs  
So where the LCF at?  
Got a big blue watch yeah its just a roley  
Living for myself and I feel so holy  
Climbing to the top tryna find the meaning of life  
Through a bottle, its so deceiving  
Fucked up living all around the world  
But the east side where I got the baddest girls  
And I don't really mean to sound superficial  
But the low key pop rap's super fiscal  
And I do it for the team bitch really mean this  
The Lamp City family and you ain't never seen this  
But it's fine all we need is time  
Cause we 'bout to blow up like a god damn land mine  
Everybody like god damn Cam high

Turnt up and I got my hand high  
East coast where I'm tryna be  
Turn up if you fuck with me
