

# Good Times

Cam Meekins

Let me tell 'em something real quick, man  
What's up, Maddie?  
What up, Tammy?

Ayo

If I could find a way to turn back time, I probably would  
Had a lot of long nights, do it better if I could  
Go until I crash, smoke a lot of grass  
Hopin' I'ma pass, gettin' ass like the  
Same me since CMP  
MP3's, I'm spittin, shoulda had me up on MTV  
Hard times that I had coulda emptied me  
But bad vibes come and go, you know you can't beat me  
Dream in the summers where I'm seein' the dolphins  
Been gettin' high, I been chillin' and golfin'  
You know I had to put the verse in a coffin  
Playin' Poker at the beach casino, baby, I'm all in  
24/7, this lifestyle is hectic  
2022, I switched the diesel up to electric  
Now you know you can't go where he go, I'm connected  
Chef's table to kitchen and it's only the breakfast

I know the bad times come and go  
But you know the good times, they gon' last forever through my memories (Where they at, where they at?)  
In my memories (Where they at, where they at?)  
And she been dancin' like a pro  
We gon' let the drinks flow, I'ma last forever through my melodies (Where they at, where they at?)  
Through my melodies (Where they at, where they at, at, at?)

Second verse, same beat, lets go  
You know it's Cam in the Lamp City Studio  
Don't even bother tryin' to reproduce the flow  
I say what I want, I'm my own producer, yo  
Whether you chillin' by the beach in Saint Peter, it's Cape Cod  
First thing I do daily is just thank God  
Then I roll a joint and I take off  
You only get what you go for, take a shot  
I'm only smokin' what I rolled up, I ain't sharin'  
A lot of negative energy at me, I ain't carin'  
So pour the drinks up, we got the music blarin'  
We got the [?] blowin', we got smoke in the [?]

You know the bad times come and go  
But you know the good times, they gon' last forever through my memories (Where they at, where they at?)  
In my memories (Where they at, where they at?)  
And she been dancin' like a pro  
We gon' let the drinks flow, I'ma last forever through my melodies (Where they at, where they at?)  
Through my melodies (Where they at, where they at, at, at?)  
You know the bad times come and go  
But you know the good times, they gon' last forever through my memories  
In my memories  
And she been dancin' like a pro  
We gon' let the drinks flow, I'ma last forever through my melodies

Through my melodies
