

# Stay

Cam Meekins

I know this ain't the first time, but its better than the last time, oh oh  
You're hoping you can figure out what was happening in my mind, oh oh  
But it gets better every day better every day better every day  
And I know you wanna stay know you wanna stay know you wanna stay

Yeah

Cause you know I gotta life I'm tryna live out  
Sorry for the message I sent out  
When I was on the road getting bent out  
From the girls upstairs getting sent down  
These days just all the same  
Wake up in a hotel what's the name  
No room key clothes missing  
Trying to make it to the Rock 'n' Roll Hall of Fame  
I know you think I drink to much  
But I think that you think too much  
Spent ashing J's in the sink too much  
So let's slow it down there's no need to rush  
You don't need to blush, still the same me  
The never tell me that the fame changed me  
Trying to switch from the Beam to the [?]  
Got a girl in every city that would stay with me  
It ain't complicated (complicated)  
My life is on the go  
And you know I can't text you on the road  
Just a couple more songs until I blow  
I've been trying to make it happen (make it happen)  
It's funny cause my teachers said I'd never make it rapping (make it rapping  
)  
But now the kids looking up to me

I know it's different than what happened in the past  
See my name's all over now  
But look I'm just happy that you asked like

I know this ain't the first time, but its better than the last time, oh oh  
You're hoping you can figure out what was happening in my mind, oh oh  
But it gets better every day better every day better every day  
And I know you wanna stay know you wanna stay know you wanna stay

Yeah

These days life goes fast  
And I can't let it blow past  
Had to go and get my dream  
Don't tell me that it won't last  
Sold out shows are a blast  
Remember when I had no cash  
And I had to drive your car  
To the studio and back  
I don't want to go back  
Fucked up every night  
Cause I got it like that  
New shoes cost almost a stack  
And my fans is the fam  
I'm calling them that  
Hold up is the spotlight on  
Beautiful girls what I'm caught up on

Bright lights, black tights  
And the bra come off in the studio all night locked to arms  
And I'm pulling her hair  
Both of our eyes just get caught in a stare  
Swimming all night then I come up for air  
Faded too long and we fell out the chair  
I don't know how I'll forget you  
I'm sorry I left you  
But I gotta go and do me  
Reading your body like it's poetry  
And she said this while she's looking at me

I know it's different than what happened in the past  
See my name's all over now  
But look I'm just happy that you asked like

I know this ain't the first time, but its better than the last time, oh oh  
You're hoping you can figure out what was happening in my mind, oh oh  
But it gets better every day better every day better every day  
And I know you wanna stay know you wanna stay know you wanna stay
