

# Tunnel Vision

Cam Meekins

I've been having tunnel vision, yeah yeah oh yeah  
I'ma smoke in public, I just blow it in the air  
I've been having demons in my mind, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care  
I've been having tunnel vision, yeah yeah oh yeah  
I'ma smoke in public, I just blow it in the air  
I've been having demons in my mind, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care

Addicted to this life I live, that job shit can't compare  
I wake up, smoke an eight, and get to wearing a new pair  
She said she need some money so that she can fix her hair  
All these models tryin' smoke with me, like I got beef with [?]  
I met this chick in Cali' when I went on tour with [?]  
She said she from the Valley, I say "I stay other there"  
Sometimes I get depressed, sometimes it feels like no one there  
Only thing that keep me going: rapping heat over the snare  
I waited for my moment, seven years, I'm finally here  
When I was out in Brooklyn, I was growing out my hair  
When I would check my chase account, that shit was lookin' bare  
Now I'm walkin' in the bank and shakin' hands like I'm the mayor

And I've been having tunnel vision, yeah yeah oh yeah  
And I'ma smoke in public, I just blow it in the air  
And I've been having demons that I fight, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care

I've been having tunnel vision, yeah yeah oh yeah  
I'ma smoke in public, I just blow it in the air  
I've been having demons in my mind, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care

I can see the writing on the wall  
Remember days they would never call  
I ain't really have a thing at all  
Now they takin' pictures when I'm in the mall  
Writing scriptures while my song slaps  
You are not a player, long snap  
Remember we would take bong snaps  
Tryin' to figure out when your moms back  
Back when I would drive the 750  
You was like a little piece of Heaven with me  
Moved out, you wasn't ready really  
Now you thinkin' that you could be better with me  
At a certain point, I had to draw a line  
Stay with you, or go get mines  
Stayed true, I never switched sides  
When you see it happen, don't be surprised

And I've been having tunnel vision, yeah yeah oh yeah  
I'ma smoke in public, I just blow it in the air  
I've been having demons in my mind, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care  
I've been having tunnel vision, yeah yeah oh yeah  
I'ma smoke in public, I just blow it in the air  
I've been having demons in my mind, it isn't fair  
Keep the roolly extra tight around my wrist 'cause I don't care
