

Alchemy

Cam

Patterns in the grass
Through the looking glass
The ground inhales, ground exhales
This too shall pass
From dust to flesh to bones to dust
We are golden
We are golden
Call it a miracle
I call it alchemy

I hear the sound
Comin' back again
And I need it now
To keep it together
Dust to flesh to bones to dust
We are golden
We are golden
Call it a miracle
I call it alchemy

Born in the darkness
Heavenly departed
All alone, walking home
Back where we started
From lost to free to found to lost
We are golden
We are golden
Call it a miracle
I call it alchemy

I hear the sound
Comin' back again
And I need it now
To keep it together
Dust to flesh to bones to dust
We are golden
We are golden
Call it miracle
I call it alchemy

Call it a miracle
I call it alchemy
Call it a miracle
I call it alchemy
Comin', goin', comin'
Come to life
We are gold
We are gold

I hear the sound
Comin' back again
And I need it now
To keep it together
Dust to flesh to bones to dust
We are golden
We are golden
Call it a miracle

I call it alchemy

In the darkness, ooh, ooh, ooh, ooh
Heavenly departed, ooh, ooh, ooh, ooh
All alone, walkin' home
Back where we started, ooh, ooh, ooh, ooh
Dust to flesh to bones to dust
We are golden
