

# Believe

Cam

If the flowers can find their way  
Up through the fallen snow  
If the icy Christmas wind  
Can find the strength to blow  
If the stars deep in the dark  
Can find the light to glow  
Then even on my darkest day  
I too can find the hope

So I will open up my heart  
Like a kid on Christmas Eve  
When the dreams are as real  
As the lights up on the tree  
And what you choose to look for  
Is what you're gonna see  
So if only for tonight  
I will believe  
I will believe

When you wish upon a star  
It won't always come true  
When your heart is broken  
It's a chance to start anew  
There's nothing I would rather do  
Than spend this night with you  
You don't have to say it  
'Cause I know you feel it too

So I will open up my heart  
Like a kid on Christmas Eve  
When the dreams are as real  
As the lights up on the tree  
And what you choose to look for  
Is what you're gonna see  
So if only for tonight  
I will believe

So I will hold on to this feeling  
'Cause I've lost it before  
And now I know that growing up  
You need it even more

So I will open up my heart  
Like a kid on Christmas Eve  
When the dreams are as real  
As the lights up on the tree  
And what you choose to look for  
Is what you're gonna see  
So if only for tonight  
I will believe
