

Kill The Guru!

Cam

Are you feeling lonely?
Trouble got you down?
Honey, these are dark times we're in now
Not a soul to turn to
Nowhere to belong
Does it feel like no one understands you

Trust me when I tell you
That I know just what you need
I'll make you shine for all the world to see
Open up your mind
And let my secret set you free
Another world is waiting
Come with me

Listen to me
Listen to me
Don't you wanna believe me?
Don't you wanna believe me?
Don't you wanna be free?
Don't you wanna be free?
Don't you wanna see what no one else can see?
Listen to me
Listen to me
I'll be all that you need
I'll be all that you need
Every lock has a key
Every lock has a key
And the truth isn't always what it seems

Trust me when I tell you
That I know just what you need
Don't you wanna be free?
I'll make you shine for all the world to see
Every lock has a key
Open up your mind
And let my secret set you free
Listen to me
Another world is waiting
Come with me

There's a bigger picture
Behind the one you see
Nothing is as random as it seems
They will try to warn you
Keep you in the dark
Don't you wanna see what you've been missing?

Trust me when I tell you
That I know just what you need
Don't you wanna be free?
I'll make you shine for all the world to see
Every lock has a key
Open up your mind
And let my secret set you free
Listen to me
Another world is waiting

Come with me
