

The Otherside

Cam

So you've lost yourself in dark, dark places
Beggin', runnin', crossin' bridges that you've burned before
Now you want back into my good graces, oh
Wouldn't you know
Don't it hurt, don't it sting, don't you feel just like me?
Don't forget love of mine that I tried
And I know I've been cruel but I learned it from you
I was there on the otherside

The otherside
The otherside
Ain't it cold on the otherside?
The otherside
The otherside
Now it's you on the otherside

Ain't it funny how when tables turn?
You're feelin' bitter, baby, but you should've thought about it
Once the fire's out you can't make it burn again
You're payin' for it, and you're hatin'
How it hurts, how it stings, how you feel just like me
Don't forget love of mine that I tried
And I know that I'm cruel, but I learned that from you
I was there on the otherside

The otherside
The otherside
Ain't it cold on the otherside (Ain't no goin' back)
The otherside
The otherside
Now it's you on the otherside (God willin')

And you're hatin'
How it hurts, how it stings, how you feel just like me
Don't forget love of mine that I tried
And I know that I'm cruel, but I learned that from you
I was there on the otherside

(Ain't no goin' back)
The otherside
The otherside (Ain't no goin' back)
Ain't it cold on the otherside? (Ain't no goin' back)
The otherside
The otherside (Ain't no goin' back)
Now it's you on the otherside (God willin')
