

## A Girl Like Me

Camélia Jordana

Walking down the street in the heart of the city  
I've seen a girl like me trying to feed her kids  
She was wearing a veil of the US flight  
Trying to slip in vain but she was high

Through the while her dream is played  
Floating down from day to day  
Ah-ah-ah, ah-ah-ah  
Ah-ah-ah, ah-ah-ah

Walking down the street in the heart of the city  
I've seen a girl like me trying to hide her black eye  
She was alone in speed, she looked lost  
Wanted to disappear, searching for her thoughts

Through the while her dream is played  
Floating down from day to day  
Ah-ah-ah, ah-ah-ah  
Ah-ah-ah, ah-ah-ah

Walking down the street in the heart of the city  
I've seen a girl like me getting in all the parties  
She tried to walk away but she just fell down  
She was drunk as fuck, just in a mini skirt

Through the while her dream is played  
Floating down from day to day  
Pain we always know  
Love is the only way to go  
Pain we always know  
Love is the only way to go
