

Blackbirds

CamelPhat

I'm running through the streets at the break of day
And I'm waiting for tomorrow to call your name
Just don't forget who you are
Don't forget who you are
Moments like these, yeah, they ours to take
So we took 'em all in before they fly away
But don't forget who you are
Don't forget who you are

You've known from the get go
That you go where the wind blows
But what can you do?
Ah-ah-ah, ah-ah-ah
You've known from the get go
That you go where the river flows
But what can you do?
Ah-ah-ah, what can you do?

When the blackbird flies
Got her knees set high
Now she's on your mind
But what can you do, but what can you do
When the blackbird flies?
Got her knees set high
Now she's on your mind

I'm running through the streets at the break of day
And I'm waiting for tomorrow to call your name
Just don't forget who you are
Don't forget who you are
Moments like these, yeah, they ours to take
So we took 'em all in before they fly away
But don't forget who you are
Don't forget who you are

You've known from the get go
That you go where the wind blows
But what can you do?
Ah-ah-ah, ah-ah-ah
You've known from the get go
That you go where the river flows
But what can you do?
Ah-ah-ah, what can you do?

When the blackbird flies
Got her knees set high
Now she's on your mind
But what can you do, but what can you do
When the blackbird flies?
Got her knees set high
Now she's on your mind
But what can you do, but what can you do

When the blackbird flies?
Ah-ah-ah, ah-ah-ah
Ah-ah-ah, ah-ah-ah
Ah-ah-ah, ah-ah-ah

Ah-ah-ah, ah-ah-ah

When the blackbird flies
Got her knees set high
Now she's on your mind
But what can you do, but what can you do
When the blackbird flies?
Got her knees set high
Now she's on your mind
But what can you do, but what can you do

When the blackbird flies?
Ah-ah-ah, ah-ah-ah
Ah-ah-ah, ah-ah-ah
When the blackbird flies
Ah-ah-ah, ah-ah-ah
Ah-ah-ah, ah-ah-ah
