

# Freak

CamelPhat

Would you blame me if I was a freak?  
I can't help the way that I think  
I got trained in the brain with recurring refrain  
Yeah this is what you did to me  
Would you blame me if I was a freak?  
I can't help the way that I think  
I got trained in the brain with recurring refrain  
Yeah this is what you did to me

This is what you did to me  
This is what you did to me  
Over and over and over  
This is what you did to me  
Would you blame me if I was a freak?  
Come prepared for what you seek  
Because it is not for the weak  
Yeah this is what you did to me

Would you blame me if I was a freak?  
I can't help the way that I think  
I got trained in the brain with recurring refrain  
Yeah this is what you did to me  
Experimental experience, mental breakdown  
Significant psyche central  
Shocked and mesmerized, sold to blue eyes  
Tractor beam into my dreams

Could you blame me if I was a freak?  
There's that hidden nerve too deep  
Give you nightmares in your sleep  
This is what you did to me  
I'm made up of parts, it stops and starts  
Electricity blood, current heart  
Over and over and over  
You said those things that shaped my head

Would you blame me if I was a freak?  
Come prepared for what you seek?  
Because it is not for the weak  
Yeah this is what you did to me  
I can't tell the difference between pleasure and pain  
Got trained in the brain with recurring refrain  
What I call love you call insane  
Yeah this is what you did to me

This is what you did to me  
Yeah this is what you did to me  
Yeah this is what you did to me  
This is what you did to me  
Yeah this is what you did to me  
Yeah this is what you did to me  
This is what you did to me  
This is what you did to me  
This is what you did to me  
Yeah this is what you did to me  
This is what you did to me  
Yeah this is what you did to me

Yeah this is what you did to me  
This is what you did to me  
This is what you did to me
