

# Hope

CamelPhat

Before we run out of water  
No life is seen getting shorter  
Memories lie  
Backed up into a corner  
We've all been a son or daughter  
Most our life  
Ooh-ooh

It ain't over, live a little  
Open your eyes, open your eyes

We should be dancing with fire  
Instead of chasing the sun  
We should be dancing with fire  
Instead we're chasing the sun  
Ooh-ooh

Clock's always out of order  
Life here just living for you  
Rolling by  
Sleep deprived  
Hope's just around the corner  
Headlights are heading for ya  
No disguise  
Burnt alibis

We should be dancing with fire  
(It ain't over, live a little)  
Instead of chasing the sun  
(Open your eyes, open your eyes)  
We should be dancing with fire  
(It ain't over, live a little)  
Instead we're chasing the sun  
(Open your eyes, open your eyes)

We should be dancing with fire  
Instead of chasing the sun  
We should be dancing with fire  
Instead we're chasing the sun

It ain't over, live a little  
Open your eyes, open your eyes  
We should be dancing with fire
