

# Venom

CamelPhat

I always knew that come a day  
There would be nowhere to escape  
I always felt it in my bones, uhmm, uhmm  
I was afraid to be alone

There is no way back to what we've known  
There's a sound you hear before you let it go

Feels like venom in my mind, I scream when you cry  
There's no remedy inside, I run when you hide  
Feels like venom in my mind, I scream when you cry  
There's no remedy inside I run when you hide

I always felt it in my bones  
I was afraid to be alone

There is no way back to what we've known  
There's a sound you hear before you let it go

Feels like venom in my mind, I scream when you cry  
There's no remedy inside, I run when you hide  
Feels like venom in my mind

Feels like venom in my mind
