

# Waiting

CamelPhat

Will we find it here?  
Keep on guessing, but it's never clear  
Keep on running till we disappear  
And I can't see  
It's right in front of me  
Forgetting everything that I believe  
Every minute that I wanna be  
So far (so far) from here (from here)

The more I want to know, the more I'll hesitate  
'Cause when your eyes are closed, I'm dreaming wide awake  
So what are we waiting for?  
About to lose control, about to feel the heat  
Don't have to take it slow now that we're in so deep  
So what are we waiting for?

It's coming over me  
We're only seeing what we wanna see  
Counting seconds till we're out of reach  
So far from here  
Have I lost my mind?  
All the memories I left behind  
What will they look like on the other side?  
So far from here

The more I want to know, the more I'll hesitate  
'Cause when your eyes are closed, I'm dreaming wide awake  
So what are we waiting for?  
About to lose control, about to feel the heat  
Don't have to take it slow now that we're in so deep  
So what are we waiting for?

The more I want to know, the more I'll hesitate  
'Cause when your eyes are closed, I'm dreaming wide awake  
So what are we waiting for?  
About to lose control, about to feel the heat  
Don't have to take it slow now that we're in so deep  
So what are we waiting for?
