

It's Over

Cameo

The dark of midnight perp is this
A sigh, a cry, a hit or miss
I wonder can you get to this
All problems can't be solved with a kiss

40 days 40 nights
Will I try to make things be just right
I thought I'd stand in nature's way, alright
But it didn't work out so I'm here to say

It's over, it's over
It didn't last very long
It's over, it's over
It seem to all turn out wrong

I knew somehow the day would come (listen)
Those clouds of grey would take away our sun (take away our sun
)
We look for love each and every day (look for love)
Despite it all I'm still here in love today

Well

It's over, it's over
It didn't last very long
It's over, it's over
It seem to all turn out wrong

It's over, it's over
It's over, over, over
Over, over
Over, over
