

## New Year's Resolution

Camera Obscura

New year's resolution to write something of value  
New year's resolution to write something would be fine  
All I ever wanted was someone to rely on  
All I ever wanted was somewhere to call home  
You offer a friendship I can not reciprocate  
So don't beg me in a garden for it not to end this way

I've been cool with you, I've been cool with you  
I've been cool with you, the sooner you admit it I will too

New year's resolution to kiss you like I mean it  
With cheeks the colour of Rhubarb we'll be fine  
Everybody's rushing around like they got a meeting  
I just want to be here with a friend of mine  
We decided to brave the elements of Spain  
Because The Seven Year Itch was on telly again

I've been cool with you, I've been cool with you  
I've been cool with you, the sooner you admit it I will too

I decided this pain was a landscape of blame  
I decided to be only myself these days

I've been cool with you, I've been cool with you  
I've been cool with you, the sooner you admit it I will too

Stay now, I wish that you would stay now  
Stay now, you nearly went away now  
Stay now, I wish that you would stay now  
I wish you would stay now, you nearly went away now  
Stay now, you nearly went away  
So stay now, I wish you would stay now
