

Ruby

Camille

Ruby, what am I gonna do with you
Babe you choose what you wanna do
Don't want my Ruby in the dust
Lost and lonely babe then you must
Understand that I am here
And you come to me
My Ruby

Ruby, what a life you choose
Babe you loose what you're trying to prove
Don't want my Ruby in the dust
Lost and lonely babe then we must
Understand that I am here
And you can come to me
Unfderstand that I am near
And you belong to me
My Ruby
