

Do You Know?

Camilo Sesto

Do you know
you've made me see another world
taste a different kind of life
different kisses of love
since I met you that night.

Do you know
now thanks to you and to your love
I've seen a dream grow and come true
and I'd like to say:
thanks for coming my way.

Love me say you love me
here and now, tomorrow and forever.
Love me say you love me
say there's nothing as a life together.
Love me say you love me
though no one understands the way we love.

Do you know (you know)
you've made me see another world (you know)
taste a different kind of life (you know)
different kisses of love
since I met you that night.

Do you know (you know)
I'll try to never let you down (you know)
as a lover as a friend (you know)
taking care of you
so you'll stay by my side.

Love me say you love me
here and now, tomorrow and forever.
Love me say you love me
say there's nothing as a life together.
Love me say you love me
though no one understands the way we love.

Love me say you love me
here and now, tomorrow and forever.
Love me say you love me
say there's nothing as a life together.
Love me please you love me
say there's nothing as a life together.

Love me say you love me
love me...
Love me... (say you love me)
