

EGO

CamO

I need a reset
I need to relax
Stop with the recap
Quit with the playback
Know that I'm bad
Got these hoes jelly
And I'mma confess
I'm no longer friendly
Shit's getting fat
Except for my belly
Thought shit would last
Mistaken that heavy
Baby oh baby
Got me all shaky

Shit
I've been and still am the backbone
My diamonds all pure and natural
Wonhamyeon modu dwae naekkeo
Wish
We going international
Ppallideul chaenggyeoyo passport
But this really ain't what I asked for

I know what you mean, but you had enough
Pussy clean make you lighten up
Size of the trust, it's not enough
Sick of love, I'm sick of lust (sick of love, I'm sick of lust)
Not sure if I could trust you, boy (not sure if I could trust you, boy)

Your words hit like a sniper
Chueokdeuri kkak cha isseo
You used to light me like lighter
Geuttaeneun geuraetji geukkaikkeo
Neon yeongwonhi namaisseo
Thanks to you, I'm a fighter
After you, it got tighter
Fast money and fast cars

Shit
I've been and still am the backbone
My diamonds all pure and natural
Wonhamyeon modu dwae naekkeo
Wish
We going international
Ppallideul chaenggyeoyo passport
But this really ain't what I asked for

Yeah baby
Come on and slide on me
You're mine and mine only
But could you die for me
Cause I can die for you
My shit all brand new
Just except for you
Baby, slide on me, yeah
