

Your bitch a burna, ya'll just let her smoke  
Dancing in Miu Miu, feel like Usher my neck froze  
This no Death Note it's a journal, number notes  
Smoke in the air, man off we go  
Hands in the air, just let it flow

They can't be like me  
And they ain't never get like me  
Hop out of the van  
My moves blam, just like JYP  
My set is in all black  
And I keep it up with HIT's  
Time flies, too fast shit don't last  
Tryna get LIT

Pop another bag  
Don't let 'em bother me  
Deowo bring the fan  
I need them dollar bills  
They like "how you do it?"  
This just my specialty  
And I don't gotta prove it  
Just peep my FIT  
I ain't here to play  
I'm here to take  
No delays straight to the bank  
You cannot catch this in a frame  
Give zero fucks about the fame  
Insaengi taepung feel the rain  
Turn a spark into a flame  
My pockets deep, it's not the same  
I'm not the same uh  
Know ur place uh  
Cut to the chase uh  
I love them papers  
I'm here to switch the game up  
And call me money maker  
You cannot be a savior  
Turn that turn that base up

They can't be like me  
And they ain't never get like me  
Hop out of the van
