

Perfect Timing

CamO

I can't hide it
It's too violent
They keep rewinding
What's a perfect timing?
Waves colliding
Eyes aligning
I keep it private
And I might deny it
I've been lying
No rewinding

Let it walk let it talk let that money bark
Ice dancing in the dark, it never stop
I do my part make it spark let em play they part
Count it fast make it last never chase the clock
All this cash and it came from my demos
Bank fat pockets dance like jello
No instructions still I build it like lego
Don't check the price i just swipe then let go

What's my name
Yeah I blame it on you not the game
I'm turning tables bitch we ain't the same
I'm skipping pebbles all day I chase
He had a diamond while lookin for stones
Da jinagagoseoya aratji bom
I can't stop blocking, they blowing up my phone
Knocking on my door just leave me alone

I can't hide it
It's too violent
They keep rewinding
What's a perfect timing?
Waves colliding
Eyes aligning
I keep it private
And I might deny it
I've been lying
No rewinding

Slid thru these dollars
Too high can't be bothered
This worth every penny
Bitch you ain't a problem
I was born ready
My christ cross eoreum
All these hoes blame me
Dareuni georeum
Told him come get me
Hana dul se georeum
You tryna convince me?
Ibe ben mal beoreut
Tonight we drink Henny
Jal an deune cheoreun
Jureo nae cheoeum
Beolsseo got seoreun

And I'm screaming and I'm yelling at a payphone
Ajikdo nan jal moreugesseo haengbok
Geuraedo gyesokaeseo pedal to the medal
I know what I'm made for
I put a face on, I pull up with my face up
Yonggineun neul eonjena nae gyeote isseo

I can't hide it
