

# Together

## Camouflage

Any time, anyhow  
Ever all you said  
Is hurting now  
Heading back  
To the scene  
Rushing adrenaline  
Through my veins  
Right now ...

Heading back, back to the scene  
Right now  
Rushing adrenaline through my veins  
Somehow  
Heading back, back to the scene  
There is no more left for real

But you said:  
Here right now  
We're together as you know  
There is more than words can say  
To stay together  
And we're together!

Words may come  
And so far they came undone  
But there's a way within the faith  
To stay together, stay together, stay together ...

Wave my name  
Hit the track  
You're a tatoo placed on my neck  
Even though  
It's insane  
Rushing adrenaline  
Through my veins  
Right now ...
