

Phone in my hand, still checking if you called  
I'm double texting  
No, I've never been cool  
And I'll burn that bridge when I get to it  
Yeah, I'm on fire

It's all blue, you know I feel it and I bet you do  
And that's on you  
If you wanna take off, baby, you do you

Over-thinking  
You know I'm really good and you're a miracle  
You're so misunderstood  
I get so lost in your mind (I'm so lost)  
Daddy, teach me this lesson a thousand times

It's all blue, you know I feel it and I bet you do  
And that's on you  
If you wanna take off, baby, you do you

I put down your pain, but I'll pick it up again  
It's all blue, that's why I fit in with you  
You know I feel it and I bet you do  
And it's all blue, you know I feel it and I bet you do  
Sat in my car til the song stopped playing  
See I'm blue with or without you baby  
Sat in my car til the song stopped playing  
See I'm blue with or without you baby

It's all blue, you know I feel it and I bet you do  
And that's on you  
If you wanna take off, baby, you do you

I put down your pain, but I'll pick it up again  
It's all blue, that's why I fit in with you  
You know I feel it and I bet you do  
And it's all blue, you know I feel it and I bet you do

I bet you do  
Too
